

PRESS RELEASE

ViaLite® - Now with Standard 3 Year Warranty

PLAINSBORO, NJ, June 1, 2009 – A.G. Franz Associates, LLC announces that all ViaLite products from PPM Ltd. will now carry a standard warranty period of 3 years.

Neal Seager, Managing Director of PPM Ltd. stresses the customer orientation of his company: “At PPM we believe our ViaLite fiber optic links are the best you will buy, so if you are unfortunate enough to experience a problem within the first 3 years of ownership we will repair and return any ViaLite module at our expense. You will bear no hidden costs.”

ViaLite modules are built to the highest design and production standards using the latest components available. PPM is confident ViaLite are the best quality fiber optic modules available, as well as offering industry leading noise figures and dynamic range.

PPM’s new warranty is the direct consequence of PPM’s customer focused mind set and commitment to quality. The new warranty gives ViaLite customers additional peace of mind during ownership.

To place an order or for more information on these offers or the ViaLite products please contact in the US PPM’s Master Distributor A.G. Franz Associates, LLC.

About PPM Ltd.:

PPM is a privately held company based in Swindon, United Kingdom, and provides a complete portfolio of RF-over-fiber products used across a wide range of applications in the communications sector. PPM products are used in the transmission of analog, RF and digital data signals over optical fiber in diverse applications including: telephone, satellite ground stations, public safety mobile radio networks, cellular antenna remoting, GPS timing and TV signal distribution.
